

The **Vintage/ Single pickups (V & S)** are a line of magnetic pickups for solid body electric guitars that are designed by DiMarzio and produced by Ibanez in Japan to the original DiMarzio specifications. The Vintage pickups were partially replaced by the **Infinity pickups** on the entry-to-mid level models when production of those lines moved to Korea in 1994.

List of pickups

V (6-string)

Vintage 1

Brand: Ibanez

Model no.: IBZ V1

Construction: Humbucking

Position: Neck

Magnet: Alnico 5

DC resistance: 10.8K

Description: Neck humbucker usually paired with Vintage 2 in bridge. Slightly overwound for beefy, traditional rhythm sound.

Vintage 2

Brand: Ibanez

Model no.: IBZ V2

Construction: Humbucking

Position: Bridge

Magnet: Alnico 5

DC resistance: 15.5K

Description: Bridge humbucker usually paired with Vintage 1 in neck. Even toned with tight leads. Smooth top-end and added sustain.
